QUALITY POLICY

Statement of Quality Policy and Objectives

The Company's policy is to maintain consistent quality of its products at the level required by its customers, recognising that achievement of high product quality is of prime importance to the success of this Company and of its customers.

GENERAL OBJECTIVES

- i) To demonstrate the Company's ability to meet and exceed the needs of its customers for precision parts of the highest quality.
- ii) To control and continually improve the quality of processes and products, this commitment also extends to continually improving the effectiveness of the quality management system.
- iii) To reduce production costs by the total elimination of defects and scrap.
- iv) to integrate quality awareness amongst all employees.

The responsibility for implementation of the above policy rests with the Quality Manager, but compliance to all objectives of the Manual are **MANDATORY** on **ALL** personnel.

Specific measurable objectives will be set annually at the Management Review Meeting and will be reviewed and updated as the objectives develop.
